

Internet Services

We offer fast and reliable fiber optics which means a better Internet experience for your household. Fiber optic cables are buried which makes them reliable in inclement weather. Fiber can accommodate the demand for high speed connections with ease for now and the future. We offer asymmetrical download/upload and unlimited usage as well.

If you are working from home, e-learning, or streaming your favorite video, our fiber Internet service offers a seamless and quick way to connect with the world. Let us help you determine the speed you need.

Speed*	Internet price	Recommended for devices/usage types
25/25 MG	\$64.95/mo.	For 2-5 devices at a time. Great for simple tasks like email, fast web browsing, streaming shows, playing music, and sharing photos.
50/50 MG	\$79.95/mo.	
100/100 MG	\$94.95/mo.	For 5-10 devices at a time. Perfect for streaming HD videos, fast gaming, downloading large files and rock-solid connections during video conferencing.
250/250 MG	\$124.95/mo.	
500/500 MG	\$149.95/mo.	For 10+ devices. Ideal for serious gaming, working from home, ultra-fast streaming and makes online activities effortless for the true internet power user.
1 GB / 1GB	\$199.95/mo.	
Internet service includes 5 free email accounts up to 50 MB each, IMAP/POP3/Webmail access, and virus/spam filters.		

*Speeds may not be available in all areas. Listed speeds are the maximum capability for that plan but are not guaranteed.

**Internet price combined with one or more services, telephone and/or cable.

Managed WiFi..... \$7.95/mo. Extender.....\$3.95/mo.

We take care of the technical details of your WiFi so you can enjoy the best possible internet experience.

- Provided through a Smart Gateway replacing your existing router
- Allows us to remotely troubleshoot your network issues
- Allows a greater number of connected devices
- Extenders are available to be used within larger homes

Activation fee is \$25.00. Additional time and material may be applied if technician determines that device should be moved to a better location.
